

NU-Telecom has an exceptional opportunity for a **Technician** in our New Ulm location.

Primary responsibilities include establishing and maintaining communication services which meet the expectations and value of each customer. This person will represent the company in a one-on-one relationship with the purchaser of NU-Telecom's products and services.

Job duties include:

- Installation / service of business and residential video service, internet service, and voice services including VoIP and phone systems.
- Installation / service of underground and aerial cables, conduit, poles and cable guide wires.
- Locating of underground fiber optic and copper cables.
- Splicing of and installation of copper and fiber optic cable connection joint housings (pedestal, aerial punch, hand holes).
- Remote maintenance.
- On call duties.

Qualifications include:

- 2 year Telecommunication, Broadband, Computer or Electrical related degree.
- Desired experience includes electronic, basic wiring, customer relations, computer knowledge / training (auto CAD, Windows, etc) and awareness of NEC guidelines.
- Valid Driver's License.
- Power Limited Technicians license (required after hire).
- Class A endorsement (required within 1-year of hire).

**Qualified candidates please forward resume and cover letter by January 31, 2012 to:**
